About FHM Accountants

Previously known as Fitzsimons Howick McEvoy, we are a firm of Chartered Certified Accountants and Registered Auditors serving a diverse client base in North Wexford, Wicklow and South Dublin from our offices in Gorey Business Park and Bray Main Street. Partners Justin Fitzsimons F.C.C.A. and Dave Howick F.C.C.A. are former managers of Lynch McEvoy & Co. which was established over 30 years ago by well known and respected accountant John McEvoy F.C.C.A. In 1999 Justin, Dave and John formed the new

partnership Fitzsimons Howick McEvoy. In 2001 John McEvoy retired.

In 2005 Fitzsimons Howick McEvoy purchased another accountancy practice which had been operating in Bray for over 40 years. 2005 was a pivotal year in the development of the practice as it also saw the establishment of the Gorey office. The enlarged practice is now one of the most well known practices operating in the North Wexford / Wicklow area and has earned a reputation for being pro-active and business friendly.

Partners Justin Fitzsimons

and Dave Howick are proud of the practice they have built up and take considerable pride in the knowledge that most of their new business comes from client referrals which is an endorsement of the quality of service the practice provides. Dave and Justin have always maintained a hands-on approach to running the practice and clients deal directly with the partners although the team does include 6 fully qualified accountants. Meetings with clients can be held in the evening depending on client requirements.

Local business owners attending the Business Networking Evening at the Ashdown Park Hotel, Gorey, on Tuesday 29th September, run by FHM Accountants in conjunction with Gorey Chamber of Commerce.

ACCA Quality Checked Award

When considering changing or appointing accountants / auditors quality of service should be of paramount importance. We obtained a prestigious award from the Association of Chartered Certified Accountants (ACCA) called the Quality Checked Seal. This involved being inspected by our Association over a comprehensive three day visit. Files and work procedures were checked to ensure we are achieving a very high standard of service. This is borne out by the fact

that less than 15% of ACCA practices in the republic of Ireland have this sought after award for which testing is mandatory. To put it another way, over 85% of practices are not meeting the required standard.

Peter Large, A.C.C.A. Executive Director – Professional Standards, said: “This award of ACCA Quality Checked is one way of assuring businesses and the public that they can have confidence in the service offered by accountancy firms. The standards we set are very

high and it is a major achievement to secure this award, which reflects well on the calibre of staff and the services the firm offers to its clients.”
